

Procedure to connect VTC-Staff network for Android

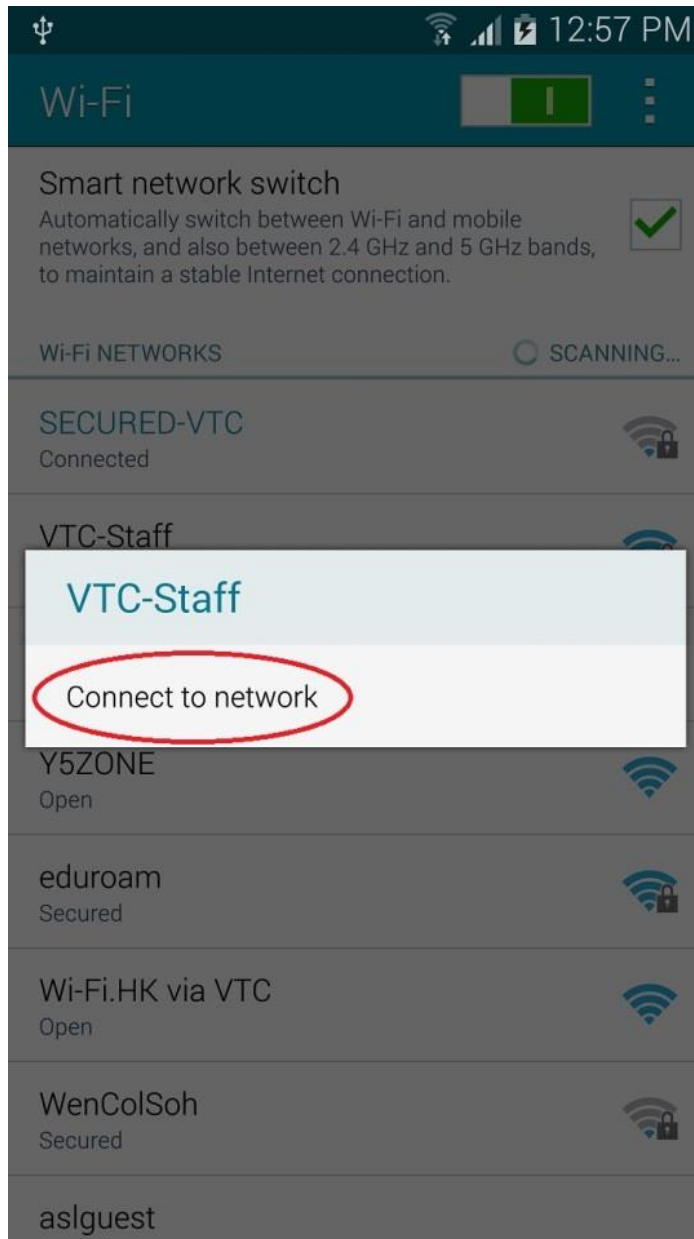

1. In the Settings > Connections > WiFi

2. Tap the "ON/OFF" to enable the Wi-Fi.

3. Connect VTC-Staff

4. Enter wireless network information

EAP method: PEAP

Phase 2 authentication: MSCHAPV2

Identity: Your CNA account < CNA >

Enter password: Your CNA Account Password.

Select Connect

The screenshot shows a mobile application interface for configuring a wireless network. The title bar at the top reads "VTC-Staff". The status bar at the very top shows a Wi-Fi icon, signal strength, and the time "1:00 PM". The main content area contains several fields:

- EAP method:** A dropdown menu with "PEAP" selected.
- Phase 2 authentication:** A dropdown menu with "MSCHAPV2" selected.
- CA certificate:** A dropdown menu with "(Unspecified)" selected.
- Identity:** A text input field containing "Username".
- Anonymous identity:** An empty text input field.
- Enter password:** A password input field with "....." and a cursor.

At the bottom, there are two checkboxes: "Show password" and "Show advanced options", both of which are unchecked. At the very bottom, there are two buttons: "Cancel" on the left and "Connect" on the right.

5. The status of VTC-Staff now changes to Connected
