

Procedure to connect VTC-Staff network for Android

1. In the Settings > Connections

2. Tap the “ON/OFF” to enable the WiFi and select “VTC-Staff”

3. Enter wireless network information

- EAP method: Select “PEAP”
- Identity: input your CNA
- Password: input your password
- CA certificate: Select “Use system certificates”
- Online certificate status: Select “Don’t validate”
- Domain: input “vtc.edu.hk”

The screenshot shows a mobile application interface for configuring a wireless network. The screen is titled with a back arrow on the left and the time 16:47 and battery status 95% at the top. The configuration fields are as follows:

- EAP method:** A dropdown menu with "PEAP" selected and highlighted by a red box.
- Identity:** A text input field with a red box around it.
- Password:** A text input field with the placeholder "Enter password" and a red box around it.
- CA certificate:** A dropdown menu with "Use system certificates" selected and highlighted by a red box.
- Online certificate status:** A dropdown menu with "Don't validate" selected and highlighted by a red box.
- Domain:** A text input field with "vtc.edu.hk" entered and highlighted by a red box.

At the bottom, there is a toggle switch for "Auto reconnect" which is turned on. Below the toggle is a "View more" link with a downward arrow. At the very bottom is a large blue "Connect" button. The Android navigation bar is visible at the bottom of the screen.

4. The status of VTC Staff now changes to “Connected”.
