

## Procedure to connect VTC-Student network for Android

1. In the Settings > Connections

2. Tap the “ON/OFF” to enable the WiFi and select “VTC-Student”

3. Enter wireless network information

- EAP method: Select “PEAP”
- Identity: input your student ID
- Password: input your password
- CA certificate: Select “Use system certificates”
- Online certificate status: Select “Don’t validate”
- Domain: input “vtc.edu.hk”

The screenshot shows a mobile network configuration interface. At the top, the status bar displays the time 16:47, signal strength, and 95% battery. Below the status bar is a back arrow. The main configuration area includes several fields, each highlighted with a red box: 'EAP method' is set to 'PEAP'; 'Identity' is an empty text field; 'Password' is a text field with the placeholder 'Enter password' and a visibility toggle; 'CA certificate' is set to 'Use system certificates'; 'Online certificate status' is set to 'Don't validate'; and 'Domain' is set to 'vtc.edu.hk'. At the bottom, there is an 'Auto reconnect' toggle switch which is turned on, a 'View more' link, and a large blue 'Connect' button. The bottom of the screen shows the standard Android navigation bar with three icons: a square, a circle, and a triangle.

4. The status of VTC Student now changes to “Connected”.
