

**Procedure to connect Y5Zone network for Android**

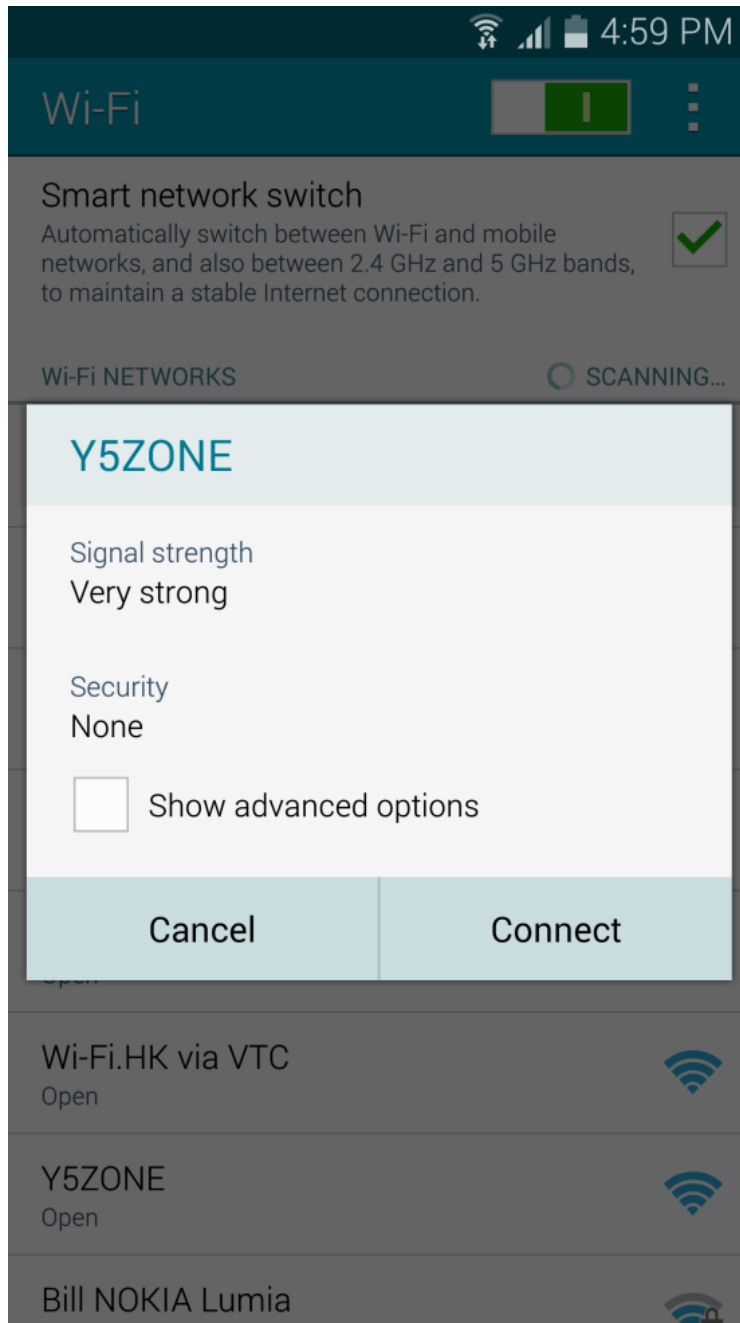

1. In the Settings > Connections > WiFi

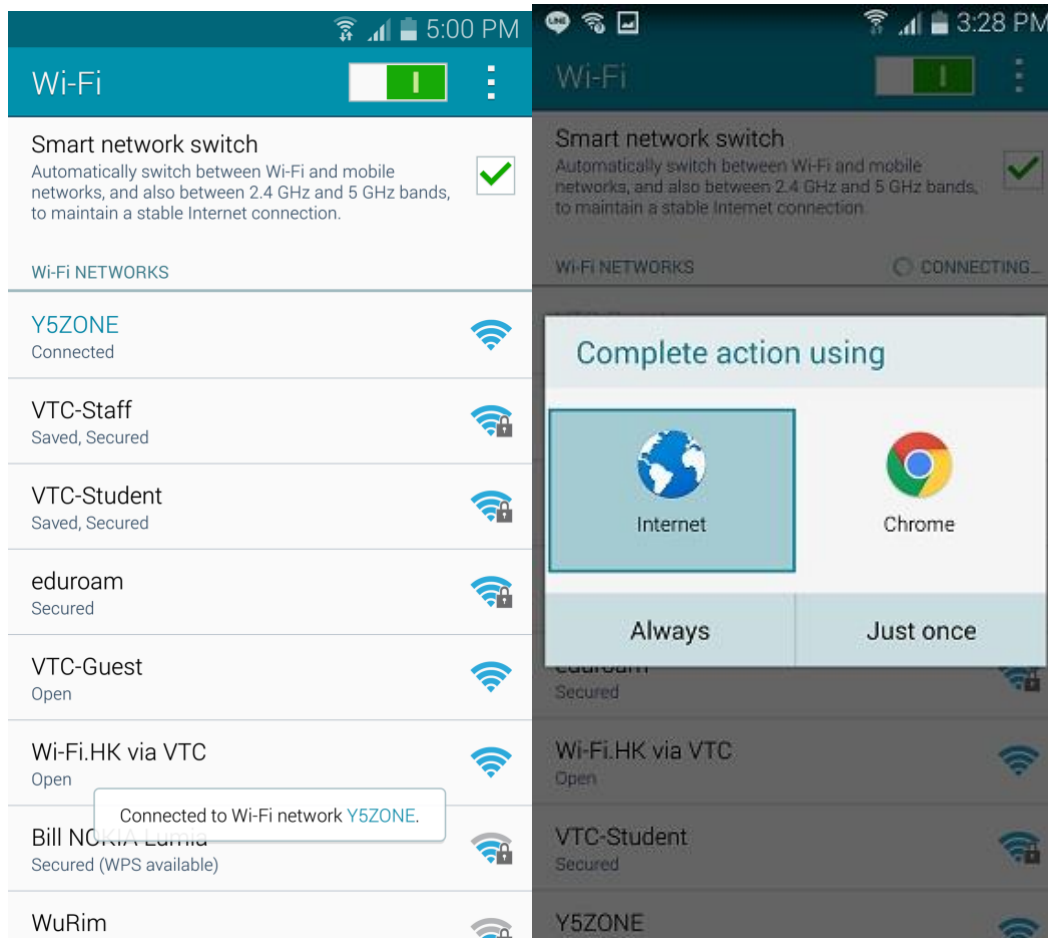

2. Tap the "ON/OFF" to enable the Wi-Fi.

3. Connect Y5ZONE & Connect

4. If a Wireless Network Connection confirmation dialog box asks you to confirm "connecting to an unsecured network", click Connect Anyway.  
A connection status dialog may appear, while a network address is obtained and initial connection established.  
If the Wireless Network Connection window displays "Connected", you can close this window and proceed to the next procedure.

5. Start a web browser and try to connect to any valid Internet site.  
If a security warning for the Subscriber Portal page appears, trust the Subscriber Portal site and do all the actions that are required to continue browsing  
The login page will be displayed. Login using your CNA account < CNA@vtc.edu.hk > and password. Y5ZONE WiFi wireless LAN service is started after the login was succeeded.
